

No.Tfc/CTO/E-DO

Dated: 16.03.2018

All Concerned

Sub:- **Ease of Doing Business / implementation of gate module**

In continuation of this office All Concerned circular of even No. dated 24.11.2017, it is heartening to inform that the technical snag, whatever delayed implementation of EDO at Kolkata Dock System, has now been resolved.

In view of above, as a part of simplification of working process and Ease of Doing Business, all concerned are hereby informed that on and from 26.03.2018, no manual delivery order will be accepted and all main line operators are requested to upload EDO through PCS for vessel calling on and after 26.03.2018 at Kolkata Dock System.

However, if any technical problem arise, they may, after completion of uploading on the PCS system, take a print out of EDO so generated and endorse the CHA to whom delivery has been endorsed, which, however, will be matched with uploaded e-do as and when possible.
